PAY YOUR SUBSCRIPTION WHEN YOU COME TO THE CITY MONDAY, COURTDAY

During the last few weeks we have mailed out with our paper subscription statements and many have sent us checks while others have called and settled, yet there are a number who have given the matter no attention. Monday is County Courtday and we trust that those who are in arrears will come to the city Monday.

Increased cost of everything in our business makes it necessary that we keep our subscription account well collected.

MARRIED AT LOUISVILLE

Miss Leora Jeffries and Mr. Wilmot K. Prewitt surprised their many friends here last Thursday, when they went to Louisville, where they were married at the First Christian church by Rev. Horace Kingsbury. Rev. Kingsbury was formerly pastor of the Christian church at Somerset church, this county. The happy couple were accompanied to Louisville by Mrs. Jeffries, mother of the bride, Miss Lizzie Prewitt Coleman, of this city, and Mrs. Marshall Foley, of Lexington, who witnessed the ceremony. After a short bridal tour they will return to this county where they will reside on the farm of the groom. Miss Jeffries is a most attractive and highly cultured girl and having travelled extensively is a most interesting conversationalist. She has always taken a deep interest in church work and the man of her choice is indeed to be congratulated upon winning so charming a wife. She is a daughter of Mr. and Mrs. E. P. Jeffries, for many years among our most substantial citizens. Mr. Prewitt is a member of the widely connected Prewitt family and is a splendid young farmer of fine ability and being of pleasant address he makes and retains friends readily. Having known these splendid young people for many years the writer is delighted with the opportunity of wishing them a long, happy and prosperous married life.

MAY CHANGE TIME

It has been reported that one or two passenger trains on the C. & O. R. R. will be taken off and that many other changes in the time of the running of other trains will be made shortly, however the local agent was unable to give us any information on the subject as he had received no orders to this effect.

ASSESSMENTS SHOW BIG GAIN

On Recapitulations Sheet as Completed by Clerk and Sent to Frankfort.

After several weeks of grinding toil, County Clerk Greene and his chief deputy, Mr. Douglas, have completed the recapitulation sheet and an increase of nearly thirty-two per cent. is shown in the assessments of property for taxation for this year as compared with 1917.

In view of this enormous increase, it is not thought the State Tax Commission will add anything to same. A statistical comparison of this and last year are as follows:

	1917	1918
Town lots	\$1,490,960	\$1,660,024
Farm lands	4,425,945	5,769,431

FAIR DATES SELECTED

The directors of the Montgomery County Fair held a meeting in the office of Secretary W. Hoffman Wood Friday evening and elected the following officers for the ensuing year: Charles G. Thompson, president and treasurer; W. Hoffman Wood, secretary; Charles E. Duff and Roger D. Barnes, vice presidents. The board selected the dates of Wednesday, Thursday, Friday and Saturday, July 24, 25, 26 and 27 for the exhibition this year.

The program will consist of running and trotting races, shows and floral hall, and an effort will be made to have a stock exhibition. Secretary Wood will make every effort to have the world's champion herd of Herefords, owned by E. H. Taylor & Sons, of Frankfort, to appear at the fair this year, as well as other champion herds of livestock. The Montgomery county derby for thoroughbreds will again be on the program and a tobacco exhibit will also be given.

WALLS COLLAPSE MANY KILLED

Pastime Theatre at Winchester Scene of Worst Catastrophe Ever in Central Kentucky.

Eleven persons were instantly killed and a score or more of others were injured when a three-story brick wall adjoining the Pastime Theatre at Winchester which was left standing when the building was destroyed a few days ago was blown down by the terrific gale Saturday night and crashed through the roof of the theatre bringing death and destruction with it. When the crash came the house was crowded with many standing. As usual in such places the front rows of seats were occupied by children and it was this portion of the building that collapsed when the wall fell, eleven were instantly killed and it is reported that one more has died since the accident and that three other victims are in an extremely dangerous condition with little chance of getting well. The accident happened at 7:45. Immediate calls for assistance were sent to Lexington, Richmond and this city and Dr. J. A. Shirley and W. R. Thompson, Miss Margaret Frost George C. Eastin and Tom P. Sutton, and Mrs. John Stofer left at once to render what assistance they could, and Miss Frost remained over until Sunday night. As soon as the news got over the city there were possibly fifty people who left in automobiles to see if they could be of any help. Two of the children killed were sons of Colonel Frisbie, who formerly lived in this city, while Mr. Baber who was killed was a brother to Mr. J. W. Baber, of this city. Many others were connected in this county and were known to many of our people.

The Winchester Sun in writing the description of the catastrophe says:

"As soon as the walls began to fall there was a regular panic among those that were in attendance at the show which was packed and about 100 or more were standing witnessing the performance.

The portion of the building which fell in was the extension to the theatre which had only been erected about a year ago and was near the stage. The front rows as usual, were occupied by children principally, who as is their usual custom, occupy the front row during the comic pictures.

Had it not been for the wind-storm which had just struck the city, accompanied by rain it is thought there would have been several more people to witness the performance which was in progress at the time the catastrophe happened. Several of the residents remained at their homes to await a slackening in the rain and wind before going to the show and for that reason numerous residents of the city were enroute to the show at the time that it happened.

The men that were killed outright by the falling debris were seated near the side in which the walls caved in.

On Friday afternoon, according to Messrs. Minor and Bloomfield, the managers of the theatre, they had the walls examined in the afternoon by a contractor who stated that they were safe and that they need not fear any danger.

It is thought that the wind was the immediate cause of the falling of the walls which were already in a weakened condition from the fire which destroyed the Luman building entirely.

All of the residents of the city

TOBACCO MARKET NEARLY OVER

Splendid Prices Are Now Being Obtained as Farmers are Bringing In Last of Crops.

Since the car shortage has been relieved the buyers are bidding strongly for the remaining amount of tobacco and the price now being received by the farmers is very satisfactory. Some splendid averages have been made as will be seen by the large advertisements appearing in this paper. It is estimated by those in charge of the warehouses that between eight and eight and one-half million pounds will be sold. There is yet quite an amount of tobacco in the barns but all the warehouses are now in position to unload the wagons as fast as they are brought in and we urge everyone who can to bring in his tobacco at once while there are yet a full number of buyers on the floor.

GETS PROMOTION

Mr. Alfred Jones has been promoted from bookkeeper to Assistant Cashier of the Exchange Bank of this city. Mr. Jones has been connected with this institution for some time and is a competent, affable young man and his many friends will be pleased to learn of his promotion.

practically were on the scene by 8 o'clock and it was almost impossible to get the ambulances and cars through the crowd to take the injured and dead to their homes and to the hospital. All of the ambulances of the city and cars were called in to service and after a rope was stretched in front of the building the injured were moved more rapidly.

The first that were taken from the theatre were taken to the office of Dr. Isaac H. Brown until the entire office and home was crowded until others could not be admitted. In the office of Dr. Brown there were to be found children, both boys and girls, men and women, and the cries of the injured could be heard for a block even during the intense excitement and the noise that was being created by the large crowd which was blocking the streets for two squares.

The parents and friends of those that had attended the performance were to be seen on all hands mingling among the crowded street in an effort to find those that had been injured.

One of the children of Colonel Frisbie was taken to the store room of the Renaker Poultry Company, which is located just across the street from the theatre with his head almost mashed into a pulp and his brains gushing from his head.

Others were to be seen with their arms and legs broken, their heads cut from the falling brick and the ceiling of the building, while others were to be seen mashed into a pulp where they had been caught by the mass of brick which had fallen from the four-story building above.

"It is considered when anyone views the walls and the way in which they began falling one of the most miraculous escapes that was ever witnessed that the entire attendance at the theatre was not killed outright from the heavy walls which had fallen."

At a mass meeting Sunday between forty-five hundred and five thousand dollars was raised to defray the expenses of the injured and to assist in the burial of those not able to bear this expense. The stricken families of our sister city have the sympathy of the entire community in their sorrow.

MRS. HAMPTON DIES SUNDAY

Passes to Her Reward After Having Lived More than Four Score and a Quarter Years.

Mrs. Lucella Embry Hampton, widow of Francis Marion Hampton, daughter of Rev. Allen and Mira Moberly Embry, departed this life Sunday morning, March 10, 1918, at 1 o'clock, after a lingering illness due mostly to the infirmities of age.

Mrs. Hampton was born in Madison county, December 23, 1831, hence was past eighty-six years old. The Embry family is numbered among the representative citizens of Madison county and at all times Mrs. Hampton has merited and borne that distinction.

She was married about sixty-five years ago to Mr. Hampton, of Mason county, who died in 1859. Mrs. Hampton had been a member of the Baptist church for about sixty-five years and her life has ever been an open book, with pages that recorded deeds of charity and the noble characteristics of a religious life. She came to Mt. Sterling in 1876 and for much of the time since that date her home has been with her daughter, Mrs. J. W. Hedden, Sr. She was known as a generous, self-sacrificing, religious Southern lady.

Funeral services were conducted Monday morning at 9:30 o'clock at the home of J. W. Hedden, Sr., by her pastor, Rev. J. S. Wilson, and burial was in Machpelah cemetery.

She is survived by one sister, Mrs. Abner Oldham, of Lexington, and one brother, Mr. Leonidas Embry, of California, Mo., a leading lawyer up to the time of his retirement from the practice; two daughters, Mrs. J. W. Hedden, Sr., and Miss Frances J. Hampton; four grandchildren, Mrs. M. C. McKee, Union; Mrs. T. B. Arthur, Jellico, Tenn.; J. W. Hedden, Jr., and Roger H. Hedden, of this city, and three great-grandchildren, Frances Elizabeth Arthur, of Jellico, Tenn.; Ada Embry McKee, of Union, and Emily E. Hedden, of this city, all of whom were here and attendants at the last rites, except her aged brother in Missouri and the infant granddaughter.

Memories of her pure, helpful life will linger as lasting imprints on the many that have come in touch with her. As characteristic of her life this verse aptly illustrates:

"Now don't it seem a coward's part To grumble and complain, While all around are those who bear

Mr. David Chenault, who was placed in Class 3 by the District Board owing to agricultural claims, has been placed in Class 1 by the same board according to information recently received by the local board. It was thought that Mr. R. M. French, Assistant Postmaster, would be placed in a deferred class but the District Board placed him in Class A1 and Mr. French has passed the physical examination.

And again when too frail to give aid in the performance of home duties she, leaning on a cane, found way to the piano and striking chords, her voice would rise to the old sacred songs so dear to the redeemed, "Amazing grace, how sweet the sound," "Did Christ o'er sinners weep," "Am I a soldier of the Cross," and other kindred songs. A greater than the writer has said, "Show me the student's library and I will read to you his character," and we can say, let us hear the songs of the individual and we can tell the religious trend, the thread of the life. Thus has ended a long life of usefulness, of sacrifices, gentleness and love.

Headed by Perry Flora, a procession of six new Buick-six cars, roadsters, coupes and touring cars, arrived in Mt. The members of the boys' corn clubs, pig clubs, and the girls' canning clubs should be actively at work these days, that the enthusiasm may not be permitted to wane in the slightest degree. The work of these agencies never counted for so much as they will the coming season. The great urgency of food conservation during the coming year opens a field for the activities of these organizations never before offered them. Heretofore their work has been largely as a matter of pride in superior achievement for achievement's sake. Now there is the added incentive that every gain effected counts in the final winning of the war. Each worker has the full knowledge that his or her individual efforts are not only appreciated but urgently needed. This should spur them to the effort to discount all former records. The young people of the land are exhibiting a splendid patriotism, and they may rest assured it is appreciated to the full by their elders.

The world will watch with interest the outcome of the German occupation of Russia, as also the disposition the Teutonic powers will make of their agents, Lennine and Trotsky—for that these worthies have been all along working in the interest of Germany, few thinking people now doubt. If treachery is regarded in proportion to its baseness, they should have high place in the favor of the Kaiser. If Russia is really their fatherland, they must find deep consolation in the thought that through their efforts she now lies helpless under the heel of her oppressor.

MODERN HOME AND EXCELLENT BUILDING LOT

I will offer for sale on the premises on the corner of Locust and Sycamore St., in Mt. Sterling, Ky., at the hour of 2 o'clock p. m., on

Saturday, March 16, 1918

My modern two-story residence and building lot in rear of same. The property will first be offered separately and then as a whole. The residence lot, which fronts about 50 feet on Locust street and runs about 100 feet on Sycamore street, contains the modern two-story house in which there are 14 rooms, three halls and a nice bath room. The rooms are large and well ventilated, and the entire house is built of the best material. The inside finish for the larger part is of hardwood, and the staircase is one of the prettiest and best to be found in the city or in any home. There are cabinet mantles in six of the rooms. These mantles are nice and in good condition. Over the doors and windows of the first floor will be found the soft light windows. The house is heated by gas and lighted for electricity, with places for the gas for lighting in the event that gas is desired for that purpose.

I will be pleased to show the property to any prospective purchaser. Terms will be made known on day of sale.

REAL ESTATE Under The Hammer

Public Auction Handsomest Frame Bungalow in Mt. Sterling

As agent for W. C. Hamilton, I will sell at public auction, on the premises, on Holt Avenue, in Mt. Sterling, Ky., on

Saturday, March 16, 1918
AT 11 O'CLOCK A. M.

His Frame Bungalow, where he now resides, on reasonable terms and conditions. This residence contains a large Reception Hall, Parlor, Dining Room, 2 Nice Bed Rooms, Kitchen; with large and convenient Sleeping Porch in the rear, and one of the most attractive and delightful front verandas to be found anywhere in Central Kentucky. The parlor, reception hall and dining room are finished in hardwood oak, with large cabinet mirror in hall and dining room, and sliding doors between the parlor and dining room. The balance of the house is finished in Georgia pine. The house is fitted with gas for heating and lighting and the bath room is fitted with as modern equipment as can possibly be found or purchased. The roof on the residence was put on out of the very best cedar shingles that could be purchased, and, in fact, the home cannot be improved upon for material, construction and convenience. The front veranda is 10 feet wide at the approaching steps and is one of the most delightful and attractive in the city. The home was built for taste, convenience, culture and refinement. All windows and doors perfectly screened. The residence is built upon a solid limestone rock foundation, one of the best in the city, and was built high enough from the ground to save the foundation timbers, allowing plenty of air to go under the residence. The home is one of the warmest in the city in winter and one of the coolest in summer, and is so located that one gets good breezes, no matter how warm the summer may be.

There is a good cistern on the lot, city water in the front and rear yard, and there is plenty of fruit, and good, rich garden spot. There is also a servant's home in the yard, and a good stable and garage on the rear of the lot which is 50 feet front and about 257 feet deep. The fencing around the garden is absolutely good and chicken proof.

The property adjoins the home of Lee Trimble and Dr. G. N. Cox, and the neighborhood cannot be excelled anywhere. The residence is located on one of the best streets in the city, and is close to the County High School, and not a great distance from City School and churches.

It is seldom, indeed, that the citizenship of a county or community has an opportunity to buy a home of this character under the hammer, as few of this kind are ever offered for sale publicly. The fact alone, that the owner, Mr. Hamilton, has made another investment, is the reason that the home is offered for sale.

Will be glad to show this property at any time. Do not forget the day and date of this sale, SATURDAY, MARCH 16, 1918, at 11 o'clock a. m., on the premises

Modern Two-Story Residence Public Auction SATURDAY, MARCH 16, 1918

On the premises, on East High street, at the hour of 1:30 o'clock p. m., I will, as agent for Mrs. W. C. Moore, offer her handsome two-story frame residence and large lot under the hammer, and will give possession immediately. The terms of the sale will be one-half cash when deed with covenant of general warranty is made and possession given and the balance due and payable in one year, with note for deferred payment bearing 6 per cent. interest and secured by lien on the property sold.

This property is one of the most desirable in Mt. Sterling. It is located within two minutes' walk of churches, business section and schools of the city. Is on High street, which is bricked. The house contains on the first floor a large hall, parlor, dining room, family room, breakfast room, kitchen and bedroom and on the second floor has a large hall, two large bedrooms and a bath room, which is one of the nicest in the city. There are 4 iron mantles in the house, and they are fine, cannot be duplicated at any kind of a price. The interior of the home cannot be improved upon. It is modern and up-to-the-minute, has been all newly papered and painted and is ready for occupancy. The finish in the house is good throughout and there is none better in the city. The residence has an excellent roof and guttering, both of which are in excellent condition, and the house is wired for electricity and also has gas for heating. One of the most attractive porches in the city. The house is on a good foundation and there is under it an excellent basement and cellar. A first-class concrete porch is at the rear which is latticed in and there is one of the best cisterns in Mt. Sterling.

On the lot, which is 55 by about 200 feet, is a stable and garage and a good garden and some fruit and grapes.

No better home has been offered in Mt. Sterling this year. It is ideally located; is on a lot that drains well; has stone fence in front, and we believe that in offering this place, we are putting under the hammer and at the mercy of the bidders, one of the best equipped and one of the best in repair, residences that we have offered for many years.

Come and look this property over and be on hand and buy you a good home or a piece of property that will grow into money.

This is a rare opportunity and it is up to you.

See me for further particulars.

THE SERVICE FLAG

Dear little flag in the window there,
Hung with a tear and a woman's
prayer,
Child of Old Glory, born with a
star—
Oh, what a wonderful flag you are!

Blue is your star in its field of
white,
Dipped in the red that was born of
fight;
Born of the blood that our forbears
shed
To raise your mother, the Flag, o'er-
head.

And now you've come in this fren-
zied day,
To speak from a window—to speak
and say:

"I am the voice of a soldier-son,
Gone to be gone till the victory's
won.

"I am the flag of the Service, Sir:
The flag of his mother—I speak of
her

Who stands by my window and waits
and fears,
But hides from the others her un-
wept tears.

"I am the flag of the wives who wait
For the safe return of a marital
mate,
A mate gone forth where the war-
god thrives,
To save from sacrifice other men's
wives.

"I am the flag of the sweethearts
true,
The often unthought of—the sisters,
too.

I am the flag of a mother's son,
And won't come down till the vic-
tory's won!"

SAME BILLY

Bill against Woodrow; Hell
against Heaven. Germany lost out
when she turned from Christ to
Krup and from the cross of Calvary
to the iron cross," shouted Rev.
Billy Sunday at a meeting held in
Carnegie Hall, New York. "I tell
you it's Bill against Woodrow; Hell
against Heaven. Germany against
America. They say that we are
fighting for an ideal. If we are we
will have to knock down the Ger-
man people to get it over. Oh, let
us put it over for Jesus Christ. All
this talk about us not fighting the
German people is a lot of bunk." When it comes to spontaneity, spir-
ituality, spectacularism and intimate
relations with the mighty men of
earth and Heaven, the Rev. William
Sunday appears to be close to the
throne. When he shuffles off his
coils of mortality he will enter the
pearly gates, slap Saint Peter on the
back and his salutation will be,
"Mornin', old man—what's the
chance for a big meetin'?"—
Arkansas Thomas Cat.

GOODPASTER FOR AUDITOR

Under the above headline, the astute political writer of the Louisville *Times* says of our good friend Sherman Goodpaster, whom we should be very glad to see have anything within the gift of the people, the following:

"There is a strong tip out that Sherman Goodpaster, the present State Treasurer, will become a candidate for Democratic nomination for State Auditor next year, and friends have already started to boost him. Mr. Goodpaster readily admits that he has the matter under consideration, but it is too early to make a definite statement. He hails from Bath county, and is regarded as one of the strongest men in Eastern Kentucky, and as a campaigner he demonstrated in the last State race that he was a runner of exceptional ability."

YOCUM IS CALLED

TO GOVERNMENT JOB

Charles Yocum has received orders to report in Washington, for a position in the ordnance department of the U. S. Government. He will leave Wednesday night.—Winchester Democrat.

Mr. Yocum is a former Montgomery county boy and son of Mr. and Mrs. I. D. Yocum, of this county, but for the past two years has been working for a Pittsburgh Oil Company, located at Winchester. He did business for the company through the Clark County National Bank. The recommendations of this bank and the splendid Government examination he passed landed the job for him. Charles Yocum is a bright, studious young man, earnest and honest in all his undertakings and we feel sure Uncle Sam has not made a mistake in selecting him to this responsible position.

ENGINEER DIES

Mr. Raymond Kobs, of Ashland, the young engineer who had charge of the city's interest when the last asphalt streets were built in this city, died at Denver, Colo., a few days ago of tuberculosis. Young Kobs was over six feet tall and looked to be a perfect specimen. When the first call was made for volunteers he enlisted and entered one of the officers' reserve training camps, however he was dismissed after staying there only a few weeks as he was found to be suffering with the dreaded white plague. During his stay in this city he made many friends, being an affable and splendid young man and the news of his death will be received with sorrow.

HELP UNCLE SAM WIN THE WAR

Be Sure and Test Your Seed Corn
As the 1917 Crop is Showing
Up Very Poor.

At this time when the Government is calling on us for help in products, one of the ways in which we can be helpful is to test our seed corn.

It takes about 100 large ears of corn to make a bushel, one bushel properly planted will plant 5 acres, one acre upon an average in good land will make 50 bushels.

Then the way this year's crop has tested out at the Experiment Station—30 to 40 per cent.—you could not hope to have over a 50 per cent. crop, which would be 25 bushels or at least a very short crop.

Now you can test what seed corn you need for your planting in about a day which will be the best day's work you will do this year unless you can secure some 1916 crop to plant instead of 1917.

Would urge that all seed corn be shelled by hand and that the grains be picked over very carefully.

Mr. J. T. Coons, one of our most progressive farmers, has very kindly made the above estimates for us and also prepared a small testing box and we have same on display at this office. We will be more than glad to explain the system of testing used by Mr. Coons and which has proven very satisfactory.

Mr. W. E. Sims, District Food Administrator, has notified Mr. S. S. Pinney, the local Food Administrator, that he has located quite an amount of tested seed corn and that if the farmers of this county will send to Mr. Pinney the amount they will need for this year that he will try and secure same for them. He stated that the wholesale price on this corn was between \$5.00 and \$6.00 per bushel and that it would be furnished to the farmers at cost plus handling and transportation charges. We do not know whether this is the crop of 1916 or 1917 but presume it is the 1917 crop as the 1916 crop is selling for about double the figures quoted. Give this your prompt attention so that your corn crop will be a bumper crop this year.

—W. S. S.—
To the Citizens of Mt. Sterling:
Spring is at our doors, and the time to clean up our premises has arrived, and we are trying to get every housekeeper in this city to put his or her place in good healthy condition, so that sanitary matters may be greatly improved in our little city and the death rate, which has been something fearful, may be greatly diminished, and the cemetery man have more leisure in 1918 than in 1917. We hope everyone will remember that "This means Me"; the health authorities shall certainly expect this matter to receive the attention its importance demands, and would have you know assuredly that if you neglect this vital matter you will be annoyed with the City Health Man; all filth of every kind must be removed, all needed drainage made good, and water supply put in FIRST CLASS order; you people know what should be done and the time to do that is NOW. We want to give you fair warning, for these things absolutely must be done this year, and doing it now will save trouble in the future, and save you the pleasure of "ABUSING the Health Department."

Most respectfully,
City Board of Health
By City Health Officer.

FOOD WILL WIN THE WAR

SALMAGUNDI

This country has made some very successful "drives" during the past year. There have been the two Liberty Loan drives, the Red Cross drive, the Y. M. C. A. drive, and others. But greatest of all, the 1917 drive for the greatest development of war gardens the world has ever seen. And the success of this drive is still plainly to be seen in the great abundance of canned and dried fruits and vegetables to be found in the homes of the land. There is no doubt that these gardens have played a most important part in our plan of food conservation, and are still effective.

And now again the country is called upon for a record production of food stuffs, an even greater if possible than the rest. The success of the garden campaign of last year should spur us to renewed and greater efforts this year. There should not be an idle garden or back yard in the land. Every square foot of ground should be made to yield its quota of the food that is to win the world war.

Now is the time to be planning these gardens. It is not necessary to wait until the time comes for actual planting. When that time arrives every person should have planned the entire summer's program and should know just what every foot of his ground is intended to produce. Fences should be put in thorough repair, the ground should be cleared for all obstructions and nothing but the mechanical working out of matured plans should remain to be done when spring really opens.

One more thought while on this subject: Plan to not let the garden interfere with the larger and greater work each man and woman must do in this year of supreme endeavor. To effect this, the garden should be made a means of recreation, and should take the place of baseball, football, tennis, golf, jockeying and other amusements. It should be the solace of the jaded business man and the tired society woman. Yes, the women will find renewed health and vigor from a few hours each day spent in gardening.

—W. S. S.—

dening.

And then when we have these gardens growing and producing, let us make a wise use of their products, that we may conserve even more meats and wheat for our heroes "over yonder," and our allies who are fighting by their sides. "Garden sass" is an ideal summer diet.

Why Attend Fugazzi School of Business?

1.—Because we do what we agree to do, and make no false representations—with a view to inducing patronage.

2.—Because we have an ample faculty of Educated teachers—and what is of much greater importance to our students, they are practical women who have had years of experience in the work they are teaching.

3.—Because we make thorough instruction and conscientious service the basis of our claim to your patronage. It is our aim to lead everyone who may enroll with us to a practical knowledge of the studies pursued, and we succeed in this with all who apply themselves. What young people need who wish to begin life at any sort of work is THOROUGH PREPARATION. The real workman in any vocation is never "out of a job;" can always get more than he can do. Business men have neither time nor inclination to instruct their employees—that is our work.

There was never a better time for you to get into the swim—Money is moving. It will be wise for you to move with it. Every condition is favorable. There is more money in the family circle than there has been in years. If some of it is not appropriated to your interest in the near future, it is more than likely that you will miss your chance. You want to take advantage of this rising tide. You can do this by making a start now. We can not only fit you for business, train you for practical work, but if you need our aid, we can get paying employment for you.

We court a thorough investigation.

THE PHOTODRAMA

Stories, Notes and News Items Concerning Film Stars and "Movies" in General.

Edited by Harry W. Mills

Richard Travers now a Captain in U. S. Army.

Richard Travers, former star of innumerable Essanay productions, and before that a Lubin luminary, is now starring under the Stars and Stripes. He was one of the recent graduates of the Government training camp for officers at Fort Sheridan, Ill., and emerged a full-fledged captain in the American Army. So it is as Captain Richard Travers that he will face the Germans on the firing line in France. Surely all screen fans who enjoy his work in the silent drama will hope that his deeds of heroism on the battlefield may excel any of his pictured exploits, and will trust that when the war is over his career as a soldier may have as happy an ending as did the romances in which he was starred.

Alice Brady.
(World)

Alice Brady was born in New York City, November 2, 1893.

The daughter of Wm. A. Brady, the celebrated theatrical manager, now Director-General of World Pictures, she naturally entered upon the dramatic field. Here her appealing personality, her excellent training, her industry, and above all her charm, were the sole influences that lifted her to prominence in such musical comedies as "The Balkan Princess," and the ever-youthful "Mikado." Her success in this field led her father to feature her in "Little Women," which proved to be a great success.

At this point in her career, Miss Brady was attracted to the motion picture field, and soon attained a high position her as well, through her sterling performances in such productions as "Maternity," "The Hungry Heart," "In Darkest Russia," "The Dancer's Peril," "The Self-Made Widow," "Paid in Full," and "The Maid of Belgium," a story of that war-torn little country.

Mrs. Vernon Castle.
(Pathe)

Mrs. Vernon Castle has had a varied and dazzling career. From a small beginning on the vaudeville stage she leaped into fame as the greatest exponent of dancing in London, Paris, and New York, when the dancing craze was at its height. Most of stage experience was with her late husband as a partner, whom she married in 1910 and with whom she won renown on the stage in America and in Europe and as a dancer for six years before entering the films. Her first appearance in motion pictures with her husband as co-star in "The Whirl of Life" (International), and she later appeared in the serial "Patria." She has lately appeared in Pathe plays, her latest being "Convict 993."

Besides her accomplishments as a dancer and actress Mrs. Castle is a remarkable athlete, her favorite recreations being swimming, riding and yachting.

Mrs. Castle, whose maiden name was Foote, was born in New Rochelle, N. Y., in 1894. She has blue eyes, light hair, is 5 feet 6 inches in height and weighs 135 pounds.

THE RED CROSS NURSES OF EUROPE ARE GIVING TOASTED CIGARETTES TO THE BOYS

To anyone who doesn't know of the wonderful advances that have been made in the preparation of smoking tobaccos in the last few years it may sound strange to speak of toasted cigarettes.

Strictly speaking, we should say cigarettes made of toasted tobacco; the smokers of this country will recognize it more readily by its trade name, "LUCKY STRIKE"—the toasted cigarette.

The American Tobacco Company are producing millions of these toasted cigarettes and these are being bought in enormous quantities through the various tobacco funds conducted by the newspapers of the country and forwarded through the Red Cross Society to the boys in France.

This new process of treating tobacco not only improves the flavor of the tobacco but it seals in this flavor and makes the cigarettes keep better.

The Red Cross nurse is always glad to have a cigarette for the wounded soldier, as, in most instances, that is the first thing asked for.

MARRY IN MISSISSIPPI

Relatives here received a message last week announcing the marriage of Mr. Lewis Sledd, formerly of this county, and Miss Louise Cox, of Columbus, Miss., which occurred at that place last Thursday. No particulars were given. Mr. Sledd is a son of Mr. and Mrs. W. Ed. Sledd, who moved from this county to Mississippi a few years ago. He is well known and popular here where a host of friends remember him as a young man of many splendid traits. Mr. Sledd was recently drafted and ordered to report Monday to Camp Pike, Ark., for training. He visited relatives here a few weeks ago. His bride is also well known to many local people, having been the charming guest of friends in this county a few years ago. She is recalled as a very pretty and attractive young woman. Mr. Sledd is a brother of Mrs. William Howell, of this county.

Opr Secretary of War says the Allies and the Teutons are ready for the big drive. Von Hindenburg is expected to make the drive, to conduct offensive fighting to hurl his hordes upon the armies of the allied Democracies. Von Hindenburg will make the drive, and it will be a lost drive. He failed at the Marne. He failed at Verdun. He failed at Ypres. Those were the great battles of history, and when Hindenburg lost them the cause of the Kaiser went down in irrevocable or ir retrievable defeat.

American soldiers have the biggest feet of any soldiers in history, according to Allen B. Albert, of Chicago, and also of the war camp committee service. This isn't all. They have the greatest chest measure, the largest hat bands, the widest step, and when it comes to over-the-top service they are the fliers of the world.

While Mrs. R. L. It has been said many, many, times that "food and money will win the war," for without these victory is, an impossibility. We are engaged in the greatest war of the world's history and we must win. Not only the grown people but also the children, the boys and girls of America, have a part in this war.

It is up to us students to do our part and that part is self-denial and sacrifice. The War Savings Stamps gives us an opportunity to deny ourselves the unnecessary things in order to help our Nation. To purchase these stamps is one of the very best things you can do—you are not giving your money to the Government when you buy a stamp—you are merely lending it and receiving a good interest on it.

There is a drive on now to get the students to form Thrift Clubs and purchase these stamps and certificates. Will you answer this call or will you be slackers? If every boy and girl will save and sacrifice something and by so doing loan his or her money to our Government, it will be another step toward victory. Are you willing to do your part? If so, buy War Savings Stamps!—High School News.

WAR HYSTERIA

Nothing can be more harmful to the business life of the country than for the people to give way to hysteria over the war. There are enough disturbing factors in the business situation, growing out of the war problems, without our adding to them unnecessarily. But this we do whenever we permit thoughts of the war to obtrude into business or cause us to vacillate or hesitate over ordinary business problems.

Business conditions are now more than ever subject to sudden change, hence there is all the more reason that the people keep cool and steady. But these changes are more in method than anything else, and a consistent application to business will enable us to grasp them as they occur and continue to conduct business in safe channels.

Another thing: There are men at Washington and elsewhere who are drawing salaries for developing our war policies. Our help in this matter is not needed. We can render the greatest aid to our country in this crisis by making of our business—it matters not what it may be—the greatest success possible. If we are farming, the greatest aid we can render will be measured by the size of our crops. The same in all lines. We can render absolutely no aid if we discuss the situation from now till next spring. We can, however, help to make confusion worse confounded by abandoning ourselves to hysterical discussions and speculations.

Another phase of the situation in which we should keep cool and preserve an even tenor, is in the matter of giving credence to the thousands of sensational reports circulated. Many of these are the product of idle brains and the outgrowth of the very useless discussions we have sought to discourage. The people will be informed from an authoritative source of all matters that affect the public welfare. Sensational reports that have not

the sanction of the Washington authorities should be frowned upon and discouraged. You are always safe in disbelieving and contradicting all such.

Taken by and large, while conditions are not normal, still there is really no good reason for hysterical worry. Coolness and common sense, added to increased applications and energy, will carry us safely through and enable our government to win out in the mammoth undertaking before it.

DOING HIS DUTY

In view of the terrible tragedy that happened at Winchester last Saturday night when many people were injured trying to get out of the theatre owing to the aisles being crowded, we think a word should be spoken for Mr. Wm. B. Small, Manager of The Tabb Theatre, of this city, regarding the manner in which he conducts the house, when every seat has been sold he will not allow standing room to be sold nor will he permit anyone to stand in the aisles of the theatre, so that in case of any kind of accident the building could be emptied in a few seconds. We might also add that The Tabb has more exits than any theatre building its size in the State of Kentucky and is equipped with every apparatus obtainable for the protection of its patrons.

A MARVELOUS PEOPLE

France will be able before July 1 to manufacture enough artillery to supply twenty American divisions, or approximately five hundred thousand troops if the United States furnishes the necessary raw material. According to representatives of the French government, now in America, the French have 15,000 guns of every caliber, and every day more than 300,000 shells are turned out by their factories. To get these guns, to produce these shells, the French government created an industry which did not exist before the war and which has enabled the French general staff not only to arm their own soldiers, but also to arm their allies.

The French have, during the past three months, given to their allies in Europe 1,350,000 rifles, 15,000 automatic rifles, 10,000 machine guns, 800,000,000 cartridges, 2,500 guns and 4,850 airplanes. France—bleeding France, whose glorious troops won the three greatest battles in history—is the wonder of the world today. Field Marshal Hindenburg is preparing for his greatest drive on the western front. It may be the last desperate drive of the war on the part of the Kaiser and his general staff. The prediction is made by General Maurice—one of the most noted of European military critics—that the drive will be a failure, and that the allied armies will smash Von Hindenburg and his legions. Spring is coming, and the bloodiest battle of the world's war is scheduled to take place before the coming of the ides of July. Germany is doomed to defeat on the Western front. Germany has met defeat on the Italian front. The end is in sight.

More than three years ago an eminent American banker made the prediction that the nation with the longest purse would win the war. Secretary McAdoo has announced that the sum of \$10,000,000,000 will be needed for war and domestic expenses between now and June 30. It is conceded that this is a staggering amount. But Americans have the money and Americans will buy the bonds. Not less than \$3,000,000,000 of this sum will be raised by taxes and the wealth of Americans, the wage-earners of America, the industries of America must pay.

ASK YOUR GROCER

More and more it becomes evident that if the government is to succeed in enforcing the meatless and wheatless days and meals there will have to be some drastic regulations that will apply directly to the eater. Hotels and restaurants in all parts of the country complain that they are anxious to obey the order to the letter, they have great trouble with customers, many of these growing violently angry and withdrawing their patronage. Of course the fellow who is guilty of such action is a poor fish at best, but then food purveyors can best not take too close notice of the moral quality of their patrons. There should be some regulation that will impress the fact in unmistakable terms on the gormand that Uncle Sam is going to save that wheat and meat, and that HE is going to do his pro rata part in that saving. We must go after the eater and not the feeder if we are to score success.

Grass Land for Rent.

On March 18, 1918, it being County Courtday, I will rent to the highest and best bidder 170 acres of grass land belonging to Mrs. M. K. Chenault. This land lies 2 miles south of Mt. Sterling, on the Camargo pike. Renting will take place at 11 o'clock sharp at Courthouse door. Jno. T. Woodford, Agt. 2t

Mr. W. W. Quicksall, who recently sold his farm and personal property here, has purchased a 50-acre farm of Charles Deitrich, one mile from Nicholasville, in Jessamine county, for \$15,000, and will move there at once to reside. The place is nicely improved and will make a good home for these splendid people.

When Secretary Baker stated that a half million men would be drafted before June, he surely hadn't sized up the crowds about the pool rooms, or he would have made the number a million.

The Buick Completely Satisfies

A large percentage of present Buick owners have owned other Buick models.

They buy the Buick on account of its acknowledged social prestige—a position attained by reason of the car's dignified beauty, stability and consistency of performance.

They are those whose tastes demand the best, and whose selection of an automobile is made upon a definite knowledge of the principles of gasoline motor construction.

Experience has taught them that the Buick is not only a car of beauty, but that in a Buick valve-in-head motor they have at their command at all times a surplus of power with economical gasoline consumption.

NOW AT FORT MEIGS

Ratliff H. Lane, assistant cashier of the Exchange Bank, who was in the recent draft contingent, but at the last moment transferred to the Quartermaster's Department, left last Wednesday for Ft. Meigs, near Washington, to take up his duties. Mr. Lane was a student at the second reserve camp at Fort Benjamin Harrison last summer but failed to receive a commission. His friends are sanguine that he will shortly receive a gold bar or better.

AFTER SICKNESS THEY GAVE HER VINOL

**And She Soon Got Back
Her Strength**

New Castle, Ind.—"The measles left me run down, no appetite, could not rest at night, and I took a severe cold which settled on my lungs, so I was unable to keep about my housework. My doctor advised me to take Vinol, and six bottles restored my health so I do all my housework, including washing. Vinol is the best medicine I ever used."—Alice Record, 437 So. 11th St., New Castle, Ind. We guarantee this wonderful cod liver and iron tonic, Vinol, for all weak, run-down, nervous conditions. W. S. Lloyd, Druggist, Mt. Sterling, Ky.

THE WAR IN BRIEF

American initiative has asserted itself on the Lorraine front in France. Three savage raids on the German lines have been made by the Americans, who succeeded in reaching the second line of the enemy trenches before being ordered to return. During their stay in German-held territory they destroyed carefully constructed defenses and picked up much material.

The American artillery ably assisted the infantry in the operation. A heavy barrage fire was laid down in front of the advancing Americans and the Germans had fled before the wave of infantry reached the hostile position. After the Americans had been in the German trenches for a few minutes a German barrage was loosed on them. The American guns answered shot for shot and silenced batteries. The American artillery men used gas shells with good effect. Near Toul, the American heavy guns have been in action.

Three raids on the British lines have been attempted by the Germans in the Armentieres sector but the British, in spite of a heavy fire from the enemy heavy guns, repulsed the Teutons. The fighting has spread along the Flanders front, the Ypres and Passchendaele sectors figuring in the official report. The activities of the conflicting armies have spread farther south, encounters near St. Quentin being mentioned for the first time in recent weeks.

Information from German prisoners was responsible for the disclosure of German plans for heavy attacks on the British southeast of Houtholst wood. On February 20, February 28 and March 8 attacks were forestalled by a terrific British artillery fire and while an enemy attack on March 9 was successful in some degrees, the British on Saturday succeeded in reestablishing their lines.

The British forces operating in Palestine have once more advanced north and northwest of Jericho. They have taken positions to a depth of 3,000 yards over a front of twelve miles. The Turk fought stubbornly at various points of vantage.

The resignation of Leon Trotsky, the Bolshevik foreign minister, is explained by a report that he acted after a quarrel with Nikolai Lenine, the Premier, who insisted that the Russian people agree to the disastrous peace of Brest-Litovsk where Trotsky protested against submitting without a struggle. The only fighting reported in Russia is in the neighborhood of Kiev, Raschkelnia and along the Shmirinka-Odessa railway, where the Germans claim to have scattered bands of Russians.

There has been fighting on quite a large scale on the Italian front, in the mountain sectors of the line, enemy attempts to advance have been checked, while along the Piave river, the Austrians were defeated in an attempt to launch pontoons for for an attack on the Italian lines.

The French have been in scattered encounters with the Germans at various points along their part of the front, but nowhere has there been serious fighting. A further bombardment of Rheims cathedral may be expected for the Germans report that a French observation post on that almost ruined shrine has been detected.

The air squadrons have been busy of late. The most spectacular of these operations were made by the Teuton airmen, who raided Naples the largest city in Italy. It may be that they started from their bases on the eastern shores of the Adriatic and flew over the sea, and across Italy, in their raid. British raiders have dropped large quantities of bombs on military points in Belgium, while the Allies have been active in Italy.

We admire patriotism in the children. We are willing they should be drafted into every activity where in their zeal and optimistic enthusiasm has such splendid results.

Let them sell baby bonds, push the Red Cross campaign and engage in any other activity that will further our cause in this great world war. But for their own dear sakes, let's have them regard it all as just a struggle for the right. Hold before their little eyes the grand principles that animate us, and keep well in the background the horrors that try our souls. Let us not permit their young and innocent minds to become inoculated with the poison

of hatred. Time enough in after years to make plain to them the horrors of the conflict. Just now it suffices that their country needs their enthusiastic services.

BE SURE AND ATTEND

Are you interested in your child? (Or something better.) Hear Miss Lida G. Gardner, National Organizer of Parent-Teacher's Association and State Organizer of Community School Leagues, at High School Auditorium, Thursday, March 21st, at 3 o'clock.

Mrs. K. O. Clarke

announces that she is ready NOW with the newest and smartest importations in spring hats. Your inspection solicited.

It is gratifying to the people that the government has begun to work on the food hoarders, and is bringing to light many hoarded supplies. The good work should be kept up. But let's not confine ourselves to the small fish and the minnows. There are some whales in the ocean that need looking after. Dollars to doughnuts, before Heney gets through with certain gentlemen dealing largely in food supplies, he will uncover a matter of hoarding that will make the country open its eyes. At 'em, Heney.

EXCELLENT RECORD

Matt. L. Kelly, son of Mrs. Matt Kelly, has returned to Marion Institute, Ala., where for the last six months he has been preparing for the entrance examination to the Naval Academy at Annapolis. This is the third son Mrs. Kelly has given for services to her country, and Mt. Sterling is justly proud of her.

EASTER TIME

SPRING 1918

And All-Wool Dress-Up Day

TOMORROW MAY BE TOO LATE FOR YOU. Take time by the forelock, for the dallier will have to take the hindmost. "Prices Higher"—No, Not Yet. Stocks the biggest, now unbroken, fresh, crisp.

Spring Suits, Spring Hats, Spring Shoes, Spring Shirts, Gloves, Neckwear, Hosiery and Furnishings for Men and Boys—of the World's foremost brands.

THE WALSH COMPANY stands preeminently in the clothing business of Eastern Kentucky. All-Wool, we say yes. No cotton here yet, and none will be tolerated later on. We had just as well give up the ghost as gamble the life of such a clothing business on the enemy cotton. Cotton will not hold either color or lustre. We say, "Dress-Up Today" as three conditions exist that come before you—the Government, transportation and shortage of production. The man who takes advantage of present prices, present showing of new goods, will be the well-dressed, well satisfied man—(and the dallier will look the hindmost.)

EASTER—only a little way beyond now—PREPARE! PREPARE!

American Boy Clothes for the American Boy

Who does not want to be an American Boy? Lads, step up, come on, YOU are the salvation. We want to sell you on the balcony. We are prepared to fit you, from head to foot, on the very newest Navy and Army styles, or just the quiet, peaceful, civilian way. Coats with belts, coats Pershing—pockets slashed, slanting, or regular in wool clothes. Long pants sailor suits, middy short pants suits, and Beach suits, in wash goods. Big line latest New York styles. Top coats and raincoats for January or June.

New straw and wool hats, in newest styles, added this week.

Make your Easter purchases today, whether from our carried stock, or special order departments. We are ready to serve you. Orders taken for suits in our tailoring department until March 20th for Easter delivery.

"Preparedness"

We are ready, Gentlemen, to show the Stetson's latest Spring Hats.

Stetson Hats are pre-eminent, no quality like Stetson, none so safe—from the sun-kissed plains of the Rockies to the barbed-wire boundries of Belgium.

"Men"—yes, REAL Men, who dare and die, wear Stetson's—Khaki, O. D., Olive Green, Browns, Belgian Belly's, and Solid Blacks, the largest showing of Stetson Hats by any store east of Louisville.

Come to Stetson Headquarters. Complete showing of all Spring Hats.

COPYRIGHT 1915 THE HOUSE OF KUPPENHEIMER

FEET FIRST! Says the Army

Good shoes, good fitting shoes are essential to every walk of life. Recently a gentleman said, "When I buy shoes, I want J. & M. Shoes; they last so long, I hate to be breaking new shoes, and that's what you have to do, when you buy other than J. & M.'s." Our Spring line is complete, high shoes and oxfords, and besides the celebrated Johnson & Murphy line, we have Dunlap, Eclipse and W. L. Douglas. Our shoe department is now under the direct management of Mr. Levi Thompson, who will give your wants personal consideration.

Spring Drive on Men's Fine Suits

Attention is requested to the Stein-Bloch and Kuppenheimer lines. For in these days of mixed conditions, but not without a certain purpose men must watch. "From sheep to finished product" naturalized these brands. American Brains, American Industry, at Rochester and Chicago, have made suits for all walks and figures possible. A look today at these all-wool, hand-tailored garments, will prove through the medium of your own eyes, our contention for their superiority.
